

# A Chronological Seasonality of Missouri Odonates - George G. Sims - Revised January 25, 2012

## A Chronological Seasonality of Missouri Odonates

George G. Sims

Route 2, Box 237-3

Mansfield, Missouri 65704-9564

(417) 554-1682 georgesims@hotmail.com

January 25, 2012

The information contained in this report was taken from a study of the seasonality of Missouri odonata, completed by the author, and last updated in January 2012. The charts below simply present the information in a chronological, seasonal form, which may be of use to collectors attempting to determine when a particular species might be expected to be found in Missouri.

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec																										
<i>Erythemis simplicicollis</i>				Eastern pondhawk				May 1 - January 23
